FIRST AND HAMILTON BUYS NEW PROPERTY

Deal Closed for Transfer to Bank of Shryock Property on West Berry Street—Includes Old Store Building Formerly Occupied by Wolf and Dessauer and the Shryock Residence on Lot Adjoining—Plan Big Office Building.

The deal for the sale of the Shryock property on West Berry street to the First and Hamilton National bank, expected in real estate and business circles of the city for several months, was closed last night.

Under the terms of the transfer, the bank takes over not only the store building formerly occupied by the Wolf & Dessauer store, but also the Shryock residence on the lot west. The entire property has a frontage of 20 feet, with a depth of 150 feet.

The consideration for the transfer is not announced. The deal was closed through Kilbourne and Perry. Present tentative plans of the bank all for the construction of a ten-story bank and office building on the newly acquired site that will be the equal of any office building in the city.

When construction of the new building will be begun has not been determined, but it is probable that there will be a delay of several months. A tentative set of plans has been prepared for the bank, though they may not be accepted. The First and Hamilton now holds a ten-year lease on its present location in the bank building, so the construction of the new structure will not be delayed.

Tentative plans that have been drawn, however, the bank will occupy the main floor and the basement of the new building.

SENATOR SHERMAN HAS FIRST SHOT

President is Charged With Flagrant Violations of the Nation's Laws—Utterances in Speeches at Columbus and Indianapolis Branded as Demagogical by Illinois Senator—Borah and Harding Will Answer Wilson's Treaty Speeches.

(By United Press.)
WASHINGTON, Sept. 5.—President Wilson's first day tour speeches drew the fire of the opponents of the league of nations in the senate today.

Senator Sherman, Illinois, opened the attack in a brief speech denouncing the president of demagoguery and accusing him of a "contemptuous disregard" of the government.

Sherman referred to the president's declaration that the international conference provided for by the treaty will be convened in Washington whether the treaty is ratified or not.

"This paragraph of the president's address is 100 per cent demagogical," said Sherman. "It is an appeal to the lawless, a covert invitation to the ever-present, restless, dissatisfied element to demand what they will. The president has already played with firebrands sufficiently to know the danger. He has yoked himself with the revolutionaries so frequently as to know he cannot check their mad race to the goal of lawlessness."

His open declaration that he proposes to convene on American soil radicals as well as others from foreign governments is a proclamation of lawlessness and contemptuous disregard of the United States government. Again we have one who declares 'I am the state.'

"Have the American people quit electing presidents and begun to elect kings? Public officials have been impeached for less flagrant violations of the laws of their country than this."

Sherman said the president should take warning from last year's congressional election and the way American sentiment is veering.

Later in the day, Senator Borah announced, he proposed to answer on the floor the president's challenge to "put up or shut up," issued to opponents of the treaty.

"It will not be possible to shut up," said Borah, commenting on the challenge.

A carefully prepared answer to the president's Columbus and Indianapolis speeches will be delivered within a day or two by Senator Harding, Ohio, who so far has made no speeches on the treaty. Harding, too, will make up the time up of shut up challenge.

Senators generally today declared they preferred to withhold comment on the president's speeches on the grounds that individual comments would "scatter their fire" whereas one or two speeches in reply would prove effective.

REDFIELD QUILTS WILSON CABINET

Secretary of Commerce Hands In Resignation Effective in October.

ARUCH IS MENTIONED

(By United Press.)
WASHINGTON, Sept. 5.—Secretary of Commerce Redfield today announced that he had resigned and expected to quit his post the latter part of October.

"Personal affairs require my attention," said Redfield. "Aug. 1, I wrote President Wilson asking for relief. It was to be gone during September, I feared to remain two weeks longer."

Redfield told the president he wished to finish the current financial year, and then resign. He said he had no other offers of official positions.

HOSPITAL GETS ARMY CONTRACT

County Council Then Grants an Additional \$100,000 Bond Issue.

FIRST FEDERAL PATIENT

The county commissioners have definitely received a contract from the federal government for the treatment of soldiers at the new Irene Byron hospital, and the county council accordingly has granted the issuance of an additional \$100,000 in bonds for the new institution.

The first army patient, Lieutenant Donald Jones, son of Mr. and Mrs. Fremont Jones, of Wildwood park, this city, was admitted to the hospital today.

Additional soldiers, who contract tubercular affections, while in the nation's service, are expected to arrive here in the near future.

The additional \$100,000 bond issue was asked by the board of managers of the county's new tuberculosis hospital to admit of the construction of two additional wings to the present building. This will provide accommodations for caring for seventy additional soldiers, who contract tubercular affections, while in the nation's service, are expected to arrive here in the near future.

TREATY LOOKS DIFFERENT NOW

Senate to Get Document With Four Reservations and Forty Amendments.

IS DUE SEPTEMBER 15

(By Associated Press.)
WASHINGTON, Sept. 5.—The treaty of peace with Germany, ordered reported out late yesterday by the foreign relations committee, will include four reservations and about forty amendments when it reaches the floor of the senate about September 15.

The committee's message to the senate, which was sent today, is a complete revision of the original treaty, providing that:

- 1.—The United States reserves the unconditional right to withdraw from the league.
- 2.—The United States is not bound by article X, and accepts no mandate except by joint resolution of congress.
- 3.—All internal affairs of the United States are removed from the league's jurisdiction.
- 4.—The Monroe doctrine is declared entirely outside the league's jurisdiction, and the United States shall be its interpreter.

The amendments include the provision that Shantung shall be returned to China and substitutes "China" for "Japan" in the wording of the Shantung section; provide withdrawal of the United States from representation on the numerous international commissions; limit the authority of American representatives on the reparation commission; provide for equal voting power in the league council and assembly of the United States and Great Britain and prohibit British colonies voting by league deliberations on questions at issue between Great Britain and the United States. Most of the other amendments simply are changes in verbiage.

The action of the committee in ordering the treaty reported out yesterday came sooner than expected and followed a stormy debate in which membership of both republicans and democrats were divided. The reservations were offered by Chairman Lodge and were regarded as representing the views of republicans advocating drastic reservations. Each was strenuously opposed by democratic members of the committee with the exception of Senator Shields, of Tennessee. Chairman Lodge planned to begin work today drafting his report, but it was not believed the report would be in shape for presentation to the senate for at least ten days. The democratic members of the committee will be allowed three days thereafter in which to file a minority report.

LAFAYETTE, IND., FARMER GOES AGAINST OLD GAME

Pat Vaughn Is Relieved of \$25,000 by Chicago "Investment Brokers."

FAKE PROMOTERS GONE

(By United Press.)
CHICAGO, Sept. 5.—Patrick J. Vaughn, 65, wealthy farmer of Lafayette, Ind., today searched for three "investment brokers" who, he alleged, relieved him of \$25,000 through a fake stock promotion game. Vaughn said he met the brokers in Colorado Springs, Colo. They introduced themselves as H. H. Robert Miller and William Miller. Horse racing was mentioned and Vaughn said he won \$25 through a "tip" the two gave him.

Stocks were the next business. This took them to Denver, where they all agreed to invest \$25,000 in a venture. Vaughn approved the plan and had his banker forward this sum, which he turned over to Holt. Vaughn went back to Lafayette to await developments. Thursday, having received no news from Denver, he came to Chicago and enlisted the aid of the local police in his search for his late "partners."

GERMAN SALESMEN POSE TO SWISS AS STUDENTS

(By Associated Press.)
GENEVA, Sept. 5.—Switzerland recently offered its hospitality to 500 poor students of Vienna university for several months. The Swiss minister at Vienna, according to official advice received at Berne, discovered that 81 per cent of the "students" were in reality young German-Austrian commercial travelers whose baggage was composed chiefly of samples and prospectuses and price lists in English, destined for London and New York, via Switzerland and arranged to appear as coming from the Swiss.

On learning this the Swiss ministry refused to endorse the students' passports.

Her sentence has been served and the application contends, as she has no property with which to pay her fine under federal statute covering such cases, she is entitled to release after serving fifty days for non-payment of the fine. United States Commissioner Gelsburg stated that nothing could be done in the case before Sept. 27.

WILSON GREETED BY REBEL YELLS

President Sits on Red Plush Throne With Mrs. Wilson—Speaks in St. Louis

(By United Press.)
ST. LOUIS, Mo.,—President Wilson this afternoon went to a luncheon at the St. Louis Chamber of Commerce to make the third speech of his campaign for ratification of the peace treaty.

The dining room on the roof of the Hotel Statler was jammed to the windows. In addition to those at tables, an overflow swarmed in when it was time for Wilson to speak and the throng was so dense many were unable to move.

Mrs. Wilson was first to enter. She carried roses. There was quiet applause as she walked to her place at a table directly below the dais on which Wilson sat.

Wilson was greeted with hand-clapping, shouts and ear-piercing rebel yells, which lasted several minutes. He was dressed in a light gray business suit and wore a rose in his lapel. The president's red plush chair resembling a throne, festooned with red, white and blue ribbons and bunches of red roses. He ended his remarks by taking his seat, after bowing several times. Flashlight photographs were taken, creating a thin fog of smoke in the room.

Called Tom Quitters.
"Almost contemptible gutters!" was the epithet applied by President Wilson today to those who refuse to go through with America's program to end all wars which Wilson believes can be accomplished by means of the league of nations.

In a speech at the Chamber of Commerce luncheon here he bitterly denounced those who seek to prevent the United States joining the league.

GERMANY REFUSES TO HAUL POLISH SUPPLIES

(By Associated Press.)
COBLENZ, Monday, Sept. 1.—Fourteen hundred Polish soldiers who came to the Alsace area for the purpose of transporting to Poland six thousand horses and mules which were purchased from the United States army, are being held up indefinitely near this city by Germany's refusal to undertake supervision of hauling troops and animals across Germany by rail. The Germans hold that the shortage of coal and lack of locomotives makes the task impossible under present conditions.

Germany is required to facilitate the passage across Germany of troops and military material intended for the Polish army, the peace terms making this stipulation.

The question of Germany's refusal to move the Polish troops and animals has been referred to the allied commission in Paris.

Arrives Early.

ST. LOUIS, Sept. 5.—President Wilson reached today the first beginning of his long swing around the circle of states west of the Mississippi.

Having sounded the keynote of his appeal in addresses yesterday at Columbus and Indianapolis, Mr. Wilson planned to take a brief respite from speech-making today before plunging into the arduous program that will carry him into virtually every western state.

Arriving in St. Louis early this morning, he arranged to sleep late on his special train and then to keep his speech-making program.

Early in the afternoon, however, he was to attend a luncheon at a downtown hotel, and in the evening he was to speak at the Coliseum, where the treaty was to be ratified for the presidency.

In Missouri the president found a situation as regards ratification of the peace treaty without an existing parallel in any other state. In the treaty-ratifying body, at Washington, the state is represented by Senator Reed the only democratic senator who has taken a definite stand for the treaty's rejection, and Senators who have declared themselves generally friendly to it and have agreed on a set of reservations as a basis for its acceptance.

Members of the president's party do not expect him, however, to make any direct reference to the political feature of the situation in Missouri.

The fighting temper of the president's appeal to the country was apparent in his two addresses. Within three minutes after he began the first of them, at Columbus, he had warmed up to his task and was putting his ideas into blunt sentences.

LANSING IN WARNING AGAINST "MUNDANISM"

Secretary of State Says Internationalism Is Danger to World Order.

PRAISE FOR THE LEAGUE

(By Associated Press) BOSTON, Mass., Sept. 5.—Secretary Lansing, before the American Bar association here today in his first public speech since returning from the peace conference gave a warning that the theory of internationalism, of "mundanism," which received great impetus during the war, constituted a grave danger to world order, but expressed his conviction that democratic nationalism as sanctioned by the peace conference would survive as the basis of society.

Secretary Lansing urged strongly the establishment of an international court as modeled by The Hague convention, and in the principle of strict legal justice, for the settlement of disputes between states, and the codification of international law into an exact system. He paid tribute to the league convention of 1919, whose work, although imperfect and hampered by "the evil purpose which the powers of central Europe had so long secretly cherished," he said, still stands as an instrument for the maintenance of the law of nations.

ORPHANS' HOME BENEFIT AT SWINNEY PARK TODAY

Junior Order of American Mechanics and Daughters of America Give Picnic.

EXPECTING BIG CROWDS

The benefit picnic, all funds from which are to go to the Allen County Orphans' home, is being held this afternoon and tonight, at Swinney park, and from early indications the affair will net a good sum for the benefit of the institution. The picnic is being given under the auspices of the Junior Order of United American Mechanics, and its auxiliary order, the Daughters of America, assisted by the Junior Orphans' Home association, composed of a number of prominent women.

Plans for the picnic have been elaborate, and many business houses of the city have operated with the orders, giving the picnic in donations of various kinds. Several thousand tickets have been sold, and it is expected that there will be big crowds on hand this afternoon and tonight for the benefit.

The action of the Junior Order of Mechanics has been commended highly, as this organization was one of those that took part in the recent investigation of the home, which led to a grand jury probe. Finding the true condition of the home and its strained finances, the Junior Order took immediate steps to bring relief, with the resulting organization of the picnic, which is being held tonight.

HOLSUM

A Wonderful Bread Making Process

FROM the re-cleaning of the highest-grade flour shown in this picture to the wrapping of the delicious brown loaves, the making of HOLSUM is a process of perfect cleanliness.

Clean automatic machinery handles every step in the making of HOLSUM. The white attended bakers merely watch and supervise. They scarcely need to touch the dough. The machines are daily scrubbed and polished and kept in a state of constant cleanness.

In the big loaf of HOLSUM—

the bakers' art has reached its highest perfection. With the baker, it has been well-known that the large loaf of bread is better quality than the small loaf from the same dough. In the baking, more of the moisture and flavor escapes from the small loaf than the large. There is less waste, consequently more economy.

Remember that wonderful bread and butter of childhood days? The HOLSUM flavor recalls those memories. It takes you back to younger days.

As a state fair feature President Wilson ranked well with the Fat Lady of Lapland and the redoubtable Bosco who eats 'em alive.

Moreover, the Journal-Gazette has not yet published those portions of the Hibernian resolutions it so angrily expunged from its report.

Passing strange, is it not, that the Journal-Gazette should "by accident" omit the very portions of those Hibernian resolutions that most galled it?

Those Fort Wayne housewives who "bought" sugar at five cents a pound and paid for it prior to delivery to an unknown small boy might very well be indicted for encouraging felony.

Under the former tax law real estate in Indiana bore sixty-seven per cent of the burden of taxation. Under the present law it bears only fifty-eight per cent. Just where have the farmer and the home owner reason to find fault with the existing statute?

Congressman Byrnes, of South Carolina, declares that the blame for race riots rests upon the "radical negroes." Evidence is not lacking, however, to show that "radical whites" also had something to do with it.

It is noticed that President Wilson is not explaining that Shantung incident in very satisfactory fashion on his "swing about the circle." And with good reason is this so. That which is indefensible, inexcusable, and altogether abominable cannot be explained.

The war department has again authorized recruiting for service in Europe. Apparently it has assumed that the league of nations covenant is to be ratified and is preparing for peace by strengthening the military arm of the government.

The Spanish war veterans in national convention have demanded intervention in Mexico. President Wilson, however, is too busily engaged in righting the wrongs of a rather nebulous "humanity" to pay attention to the wrongs of real Americans.

Yes, it is likely that your taxes are to be somewhat higher than in the past. But just consider for a moment that they would have been higher even had no new tax law been passed. Government, like everything else, costs more, and hence those who have it must pay more.

Herbert Hoover needs a job, so the federal administration gives him one. It might be well, however, to ascertain that he is not also secretly in the employ of certain European nations while functioning for our own. While food administrator for the United States he likewise served as purchasing agent for the allies and intimations are not lacking that he made the most of his rare opportunities.

Last year the county tax levy was 80.9 cents and this year it is only 35 cents. So the re-valuation of property for taxation purposes at its real worth turns out to be not such an awful thing after all. That which is lost in one way is gained in another and after all a state of equality and fairness is reached for the first time in the history of Indiana taxation. The new law may not be perfect but it is a step in the right direction and any alternation in it should be in the way of strengthening rather than weakening it.

UNCERTAIN.

The legislatures of two-thirds of the states must ratify the amendment providing for woman suffrage before it can become effective and it is no sure thing that they will so respond. In the south especially opposition runs at high tide and the procession of states refusing to ratify the amendment is at once disquieting and ominous. Virginia and Alabama went on record this week by decisive majorities as opposed to granting suffrage to women and it is not improbable that the alignment of a "solid south" will be found against the proposition. If this be true, and it is among the probabilities rather than the possibilities, it will require the votes of only a few other states to set up an effectual bar to the enfranchisement of woman. It is known that certain New England states may also render negative decisions, so upon the whole the outlook is not so rosy as it appeared to be when congress took favorable action several months ago in submitting the matter to the legislatures. Southern bourbonism and New England provincialism may yet act together to deny political equality to the women of America. The exigencies of politics effect some strange and startling combinations in our social life, but as yet nothing quite so startling as a joining together of the "Puritan" and the "Cavalier" to make war on woman.

THE PRESIDENT IN ERROR.

President Wilson's plea that the senate's delay in ratifying the peace treaty is operating against this nation by acting as a bar to trade relations is a manifest absurdity. Either the president is guilty of a crass and stupid attempt to mislead the country or he does not realize what is going on. He lacks information as to what his own departments have been doing. The fact is that trade licenses have already been issued and that trade is proceeding under them as though the war had never been. While figures for July and August have not yet been made public, it is officially shown that during June we shipped to Germany \$3,383,000 worth of our products and received from Germany \$1,000,000 worth of German products. To Austria we have shipped since the signing of the armistice \$20,000,000 worth of products, or fifty per cent of the normal. There is plenty of evidence at hand, too, to prove that normal trade is prevented only by a lack of products and ships to carry them. The war is over and every man, woman and child in every affected country knows

it. The president's attempt to make it appear, therefore, that the senate's failure to ratify the treaty is holding up a state of peace and preserving war time conditions is absolutely unworthy and untrue. Nor is it made the less creditable by the president's express and explicit denial of the knowledge that trade relations have been resumed. If he did not know of the fact, he should have known of it, for the licenses were regularly issued by a department of the government of which he is the head.

CONCERNING SUBSTITUTES.

"What have the opponents of the league of nations to offer in its place?" querulously inquired President Wilson in his Indianapolis address, meaning thereby to convey the impression that this country is under the necessity of accepting some radical change in its fundamental law and ancient policy. His error, however, lies in the root of his assumption. For honestly, there is no need of offering anything as a substitute. We can merely go on as we have been going for the past hundred years, minding our own business and prospering thereby. Because some fellow comes along offering to inoculate us with smallpox germs is no reason why we have to accept it as a substitute, and because some one proposes that we become a nation of horse thieves is no reason why we shall become a nation of chicken thieves by way of compromise. "What have the opponents of the league of nations to offer in its place?" We have nothing to offer save the same American policy of non-interference in foreign affairs and our ancient custom of attending strictly to our own business.

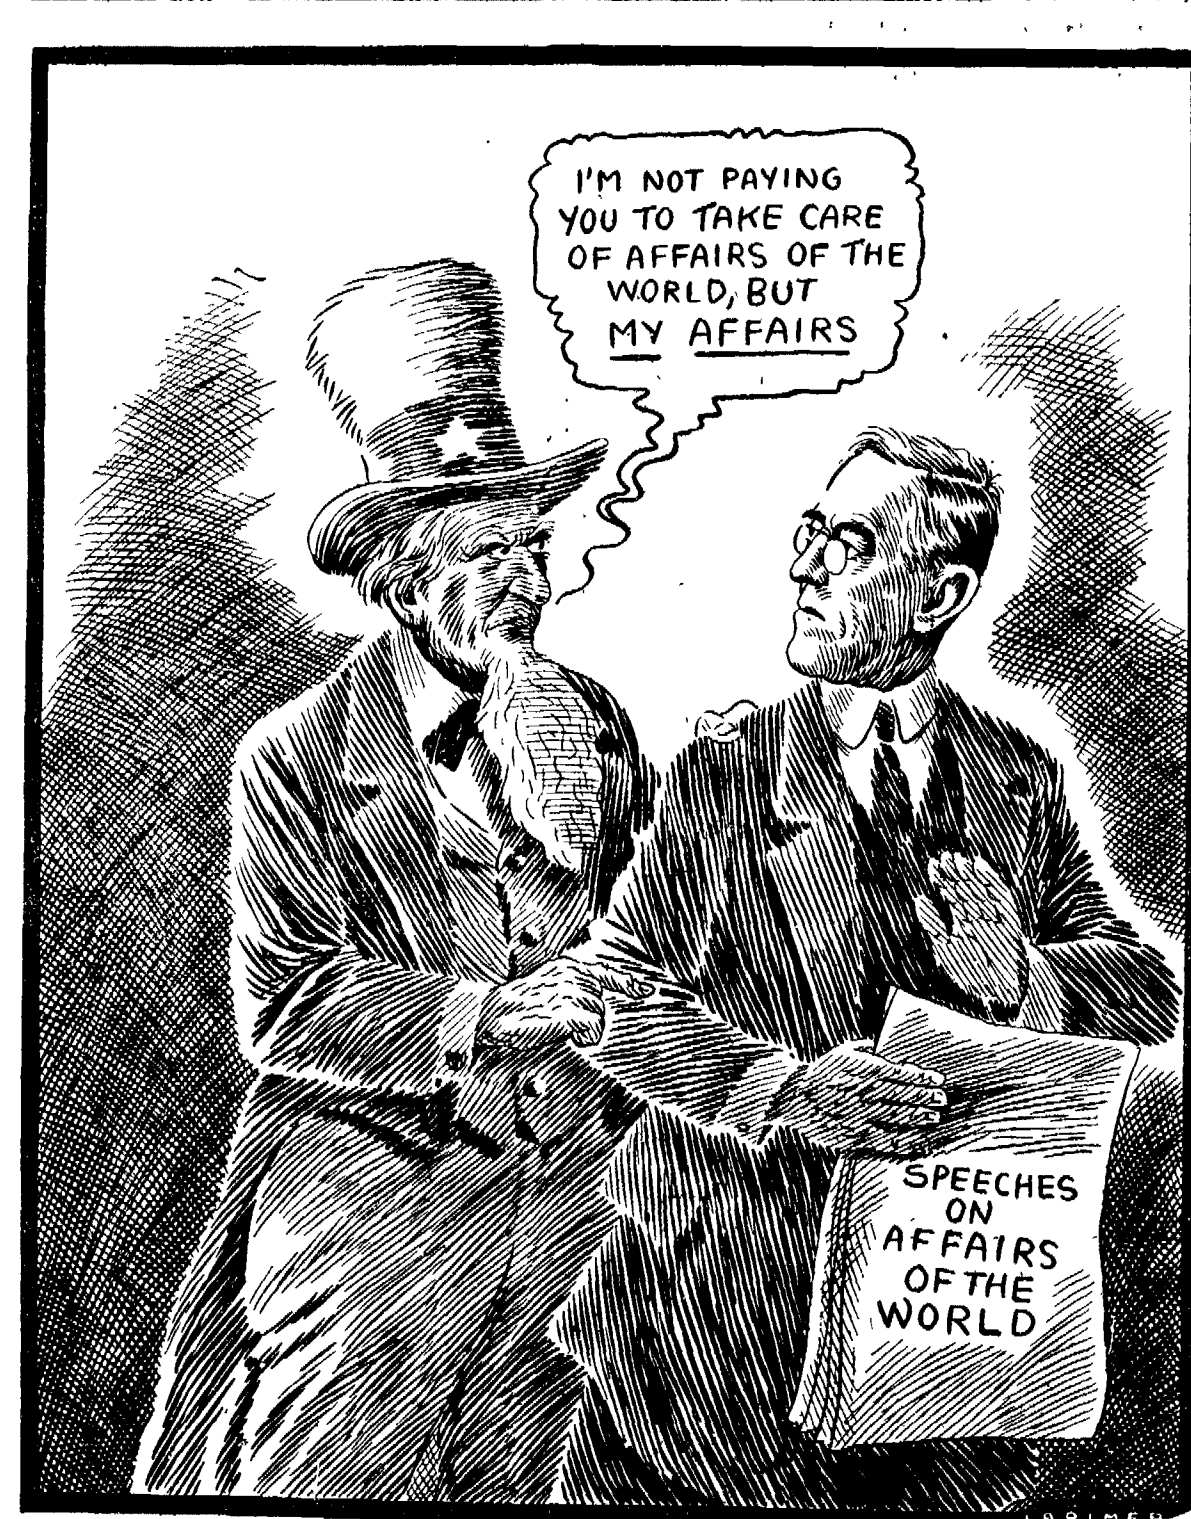

AS TO OPPRESSION'S CHAINS.

With smug pharisaism President Wilson yesterday declared in Columbus that the treaty of peace as framed "tears away the chains of oppression and gives small nationalities the right to live their own lives." Just what chains of oppression does it tear away and just what small nationalities does it give the right to live their own lives? We want to know, and it might be well for our purring president to become specific. He should become specific for the reason that it is charged that his treaty, far from "tearing away the chains of oppression," really forges them. What about Shantung? This treaty proposes to deliver the forty million Chinese inhabitants of that province, our friends and our allies, over to the brutal and oppressive dominion of the Japanese. Just what people does it propose to free and allow to live their own lives? Generalities mean nothing and are usually indulged in to excuse error and cover crime by misrepresenting conditions. And especially is this true in President Wilson's case, for he personally is responsible for the shameless rape of Shantung.

We have this on no less an authority than the president's secretary of state, Mr. Lansing. Testifying before the senate committee, Mr. Lansing declared that he believed that had President Wilson stood fast against the outrage, not only would Japan have signed the treaty but that China would have done likewise. Thus the president's weakness, his itching desire to secure the adoption of his league of nations, led him into acquiescence in the perpetration of an infamy that shocked humanity and did violence to every tradition of justice and of righteousness. Yet this man, this selfseeker and ego-maniac, has the effrontery to stand before the American people and declare that his treaty which enslaves a nation, "tears away the chains of oppression!" To perdition with arrant hypocrisy of that sort.

NOT LIKELY TO BE ANYTHING NEW.

Herbert C. Hoover is coming home and if plans afoot do not miscarry he will undertake to teach the people of America how to reduce the cost of living. If Mr. Hoover knows the manner of teaching them that, the homecoming celebration ought to be an enthusiastic affair. Nevertheless, the fact is that Mr. Hoover will have nothing new to teach. He will propose nothing and undertake nothing that much the greater bulk of the people of this country do not already know and understand. What Mr. Hoover will undertake, if anything, will be to get the people to do what any people, with less prosperity, with less fat lining their bellies and with less substance to waste, perforce would do and be the better off on all accounts for doing. Extravagance of one sort and another, waste of one sort and another, self-indulgence of one sort and another, boastful pride of one sort and another and unctuous conceit of one sort and another all taken together will go far to explain why the cost of our living is costly. Underlying the high cost of living are causes that neither Mr. Hoover nor any one else can show us the way to overcome for they are imbedded in economic factors by no means peculiar to America; but there is no questioning that he will be able to declare at least what any rational observer of the American way of living can tell us of the reasons why our cost of living is so high. It was the common observation of European students of American life before the war that extravagance and waste among us would comfortably support a similar body of people in almost any old-world country where a rational thrift was the general rule and practice. Doubtless this was true. Nor did it contemplate merely the difference in the standards of living, in which respect Americans are distinguished above perhaps all other peoples. What was meant referred merely to extravagance that was practiced for the sake of extravagance itself and waste that was careless and wanton frequently. Mr. Hoover no doubt is coming to tell us to make an end of much of our wilful nonsense and it may be to propose some scientific consideration of our fashion of getting things to market by producers and out of market consumers. In either aspect of our case there is wide latitude for improvement, but the facts are nothing new. We simply pay no attention to them. If Mr. Hoover knows how to get our attention to them and hold it there steadfastly and practically, he comes substantially to our service and ought to be welcome. That he is coming with any magic of panacea for the cost of living or with any power to conjure earthward the soaring prices of the times is a futile hope. More production, fewer factors of cost in distribution and somewhat less of the spirit of competition in the vainglory of displaying not only how well we do live but how well we can live will accomplish something to lengthen the purse and shorten the bills. However, be what it may that Mr. Hoover has up his sleeve to ease the cost of living, the uncommon no less than the common people will hear him gladly.

Private Opinions Publicly Expressed

Friends of German Democracy.

To the Editor of the News:
A letter received by a Fort Wayne citizen a few days ago from his brother in Germany the present condition of that country is described as follows: "The terrible war is over, and many families have been wiped out entirely, but the present conditions are not much better than the war itself. The people are uncontentable, the youths are totally spoiled, the government has lost its power, nobles and crimes are daily occurrences; no one is safe of his possessions; cows and horses are stolen from the barns. Nobody dares to object to these pillagers, other than the few who are shot down on the spot." We must consider that the present government of Germany is representing the mildest and most conservative branch of the world and fanatic spartacus group, or bolsheviks. May our country be saved from that kind of German democracy and their German friends.

The Y. W. C. A.'s Case.

To the Editor of the News:
Much has been said about the Y. M. C. A. abroad and profiteering. People who live in glass houses have no right to throw stones. We do not have to go farther than our own city to see our Y. W. C. A. turned into a fashionable boarding house. The Y. W. C. A. intended to protect, defend and support the business girl, has lost its identity entirely. The working girl who has to stand on her feet all day is compelled to stand in line for her lunch or evening meal, with her own money. The Y. W. C. A. is not supposed to operate for profit. The restaurants are. Yet you can enter any restaurant and be served a cup of coffee for 5 cents. The Y. W. C. A. is supposed to be a cup. We pay 6 cents for an ear of corn retailing at 15 cents per dozen; 8 cents for a tablespoonful of cottage cheese, which retails at 3 cents per cup. The Y. W. C. A. is supposed to be a cup. The men receive always the more generous helpings than the working girl. If we have no protection from the profiteer in the Y. W. C. FOOTBALL NEARLY FORMED

ated Under Direc-
M. C. A. Same
ball League.

TO START SOON

all season is almost
being taken for the
an industrial foot-
elementary organi-

zation is completed and several com-
panies have held the first practices.
The league is sure to attract consid-
erable interest as the baseball league
was highly successful.

The Wayne Knitting mills have
started practice at noon and even-
ings and the employees have showed
a great deal of interest in the pros-
pects of a football team. The fol-
lowing men have reported for prac-
tice thus far: Blank, Petrovski,
Schuman, Seibold, Craig, Keller,
Russ, Schelper, Burdeman, Mc-
Creary, Scholz, Ashton, Morehead
and Steigener. Of this number there
are those who have played on differ-
ent army teams and local teams, and
will make strong men this season.
The Wayne Oil Tank & Pump

works has had several practices and
a team is rapidly forming.
It is likely that the following in-
dustries will enter the league, as
special invitations have been issued
to them to enroll. General Electric on
Broadway, Wayne Oil, Wayne Knit,
Dudlo, Pennsylvania, Wabash and
Van Arman.

Will Meet Sept. 11.
A meeting of the representatives of
the different factories will be held at
the Chamber of Commerce on Sept.
11 to make arrangements for the sea-
son's games. It is thought that at
that time the various factories will
have sufficiently organized them-
selves to be able to tell about what
can be done this season.

The games will be played at the
various parks on Saturday afternoons.
It will be necessary to have two or
three games each Saturday to com-
plete the contests in time. The
grounds for playing will be chosen
definitely later.

Baseball Has Been Successful.
The Twilight baseball league, which
has been conducted under the man-
agement of the Y. M. C. A., has been
highly successful and has afforded
much enjoyment to the employees of
the different companies.

SAFETY UNIT MEETS.

Pennsy Organization Met Today at
Station.

The division safety unit of the
Pennsylvania railroad met at 2:30
o'clock this afternoon, in the assem-
bly-room of the station. Routine
business was transacted and many
employees interested in the work
spoke and made suggestions as to
how working conditions may be im-
proved to safeguard workmen.

C. M. Woods, agent at Warsaw, and
R. E. Hunt, agent at Delphos, were
present and gave interesting talks on
the accomplishments and aims of the
organization. C. F. Fissel, H. F.
Harper, W. J. Cunningham, C. R.
Seckler, local employees, spoke at the
meeting also. Superintendent Schroll
presided as chairman of the gather-
ing.

TO SHARE PROFITS.

Employees of Wayne Knit Will Re-
ceive Bonus Saturday.

According to a statement issued to

the employees of the Wayne Knitting
Mills the fourth installment of the
profit-sharing bonuses will be paid
on Saturday, September 8. The sum
that will be paid to each employee will
amount to about five per cent of his
earnings of last year which ended
June 1, 1919.
This payment is the last of a 25
per cent bonus to be paid, the whole
being calculated on the same basis
as the last payment. Persons having
left the service of the company for-
feit the additional wage, and those
who have joined the Wayne Knit
forces since the end of the year will
receive nothing at this time. The
office help, knitters and all classes of
employees are to share in the pay-
ments tomorrow.

 EIGHT DRUG STORES—FOUR IN FORT WAYNE
 oun, 902 Calhoun, 1420 Calhoun, 2002 Broadway

The play tells the dramatic story
 of the daughter of two races—a girl
 who, though born in a coffin ship in
 the slums of Peking, is educated
 among the European surroundings
 and ideals of the Christian Mission,
 where she adopts faith of her father.
 How she feels the perpetual con-
 flict of her mixed blood—the seeth-
 ing passions and desires of both races
 which are forever at war in her soul
 are dramatically shown by this un-
 usual actress. She imbues the char-
 acter with all the inscrutable mystery
 and passionate fire of the glowing
 East and at the same time conveys
 to the beholders the vast racial gulf
 which separates the two girls, who
 though they possess the same father,
 are as remote as the poles.
 How jealousy leads her to forsake
 the people of her father's race—cast-
 ing aside their religion and beliefs,
 and assuming the historic and sinis-
 ter title of the War Maiden of China
 is graphically shown, as is also her
 poignant remorse and frantic efforts
 to save those she has grown to love
 from the racial storm which has
 raised about them.
 The powerful climax is reached
 when the Eurasian realizes that her
 yellow blood stands between her and
 the man she loves, and that Blanche,
 her white half-sister, has won where
 she has failed.

CLEMENCEAU TO ENTER

ACADEMY WITHOUT FLOURISH

(By Associated Press)

PARIS (Sent. Mail).—The French academy is in a quandary. Premier Clemenceau refuses to take part in any official reception when he takes his seat for the first time under the dome of the academy. This is absolutely unprecedented. No official address of welcome by a brother academicien, no panegyric of his predecessor by academicien Clemenceau, no need for him to listen to any oratory in response. M. Clemenceau desired to merely walk in and sit down and be one of the family without any of the usual ado.

whom six were negroes. There was a single execution for desertion. Murder trials totaled 110, resulting in 62 convictions. One-fifth of all the general court martials were officers and the rest enlisted men and welfare workers. Most of the officers were charged with drunkenness and disorderly conduct. Convictions resulted in 67 per cent of officers cases which went to trial, seventy-seven per cent of the men tried by general court martials were found guilty.

Only one conscientious objector was tried in the A. E. F.

The investigation failed to establish that officers had received more lenient treatment than enlisted men in the A. E. F. court martials.

ELEVEN CHURCH BODIES IN WORLD CONFERENCE

(By Associated Press)

DETROIT, Mich., Sept. 5.—Eleven great church bodies, exclusive of the Roman Catholic, will participate in the great new world church conference on faith and order, to be held in 1920 according to a report to be presented at the general convention of the Episcopal church here Oct. 8 to 27.

The heads of these organizations, according to the report, have signed pledges presented by the world touring Episcopal bishops, to co-operate in the conference. The report adds that the Episcopal delegates were courteously received by the pope who expressed approval of the conference as a means of getting together all communions "not in union with the chair of St. Peter," but held that the teachings and practices of the Roman Catholic church precluded its participation.

The 1920 conference, it is stated, will be the largest ecumenical council in the history of the world, each of the eleven church bodies attending embracing from two to twenty autonomous churches. The eleven great bodies are: Anglican Baptist, Congregational, Eastern churches, Friends, Lutheran, Methodist, Moravian, Old Catholic, Presbyterian and Reformed South India United church.

UNION BUSINESS AGENTS ARE AFTER MORE PAY

(By United Press)

CHICAGO, Sept. 5.—Business agents of unions struggling along on from \$40 to \$100 a week in Chicago, may soon trim the tailor, if predictions made today come true.

And there may be a strike—but don't worry, the unions themselves will have to fork up this time.

Arguing that during the last six months most labor strikes have been won by the unions—which gives the agents' delivering power—business agents began a little subrosa discussion as to the chances of improving their own stipends, according to good authority.

"If we win the strikes, up goes our pay," said one. "If wages of everybody else go up why shouldn't we join in and get our share?"

Organization of the international brotherhood of business agents was suggested.

FEDERAL BOARD SAYS REACTION HAS SET IN

(By Associated Press)

WASHINGTON, Sept. 5.—Reaction from the high price level established during the war has set in, says the federal reserve board's review of business conditions in August.

Not only are some forecasts declining in cost to the consumer, but the price of wearing apparel such as textiles and shoes, also has been affected, the review says. Business satisfactory solution of the wage and price problems was reported from all sections of the country.

WESTERN UNION EMPLOYEES TAKE SLAP AT BURLESON

Honorary Membership in the Telegraphers' Organization Is Denied Him.

SAY HE IS HEARTLESS

(By Associated Press)

DENVER, Colo., Sept. 5.—Honorary membership in the Association of Western Union Employees, a national organization, was denied Postmaster General Burleson at the annual conference of the association here.

A report of the committee on resolutions was adopted recommending that a resolution extending honorary membership be rejected.

The report said Mr. Burleson expressed no compunction in rejecting the association's agreement with the company and deliberately denied us the benefit of the retroactive pay.

The report added that he displayed his "true heartlessness" in reducing the rate of pay for Standard work, and kept the association in a dangerous and nervous suspense for three long months before expressing his decision.

DR. BARNARD ASKS FOR YEAR LEAVE OF ABSENCE

(By Associated Press)

He came to Indiana in 1905, becoming chemist to the state board of health. Prior to that time he was state chemist in New Hampshire.

FORT WAYNE MAN IN AN AUTOMOBILE ACCIDENT

(Special to the News)
COLUMBIA CITY, Ind., Sept. 5.—W. H. Butler of Fort Wayne, who was on his way to Barbee lake and driving his Dort car at nearly thirty miles an hour, collided with a Studebaker car driven by Miss Vera Jontz Wednesday evening and narrowly escaped serious injury. Miss Jontz was driving to the Frank Knisely home to meet her sisters, who had been at a party given there. She signaled that she was about to turn into the Knisely yard when Butler ran into her car, badly damaging it. Butler's car kept on going and smashed into a fence post. The bumper was twisted around the fence post and the steering gear was injured. The impact of the collision with the post threw Butler forward in such a manner that the steering wheel caught him in the stomach. He was insensible for a few minutes and the ladies thought he was killed. When he was revived he admitted that the accident was his fault and is alleged to have said that "The law ought to handle such fellows as I am." He stated that he was camping at Barbee lake and had made the thirty-eight-mile trip to Fort Wayne in an hour and was trying to beat the time on his return trip. He drove on with his car at a rapid pace after recovering from the shock and agreeing to pay the damages.

Ask Your Neighbor Who Burns One? Cole's Hot Blast Heater

More than four thousand Coles Hot Blast Heaters have been sold to satisfied customers in the past fifteen years of our selling this very remarkable heater—that's why we say "Ask your neighbor who burns one." In all these years we have never found a customer who did not say that it was the best and most economical heating stove they ever had. We are still selling them much faster than we can get them from the factory. We urge you who have a heater to buy to not delay. Buy now while the stock is full and your selections are the best. You can purchase any Coles Hot Blast on our liberal terms of \$1.00 a week. Why wait?

Burns any kind of fuel---and costs less to burn

READ THIS REMARKABLE GUARANTEE

- 1.—We guarantee a saving of one-third in fuel over any lower draft stove of the same size, with soft coal, lignite or slack.
- 2.—We guarantee Cole's Hot Blast to use less hard coal for heating a given space than any base burner made with same size fire pot.
- 3.—We guarantee that the rooms can be heated from one to two hours each morning with the fuel put in the stove the evening before.
- 4.—We guarantee that the stove will hold fire with soft coal or hard coal from Saturday evening to Monday morning.
- 5.—We guarantee a uniform heat day and night with soft coal, hard coal or lignite.
- 6.—We guarantee every stove to remain absolutely air-tight as long as used.
- 7.—We guarantee the feed door to be smoke and dust proof.
- 8.—We guarantee the anti-puffing draft to prevent puffing.

The above guarantee is made with the understanding that the stove be operated according to directions, and connected up with a good flue.

How to Save the Valuable Gas, Half of Your Fuel and Turn it Into Heat

The most valuable half of soft coal is gas, which is distilled from the bed of coal and is continually collection in the upper part of the stove. How to save this valuable gas and turn it into heat is of intense interest to every one. In order to prevent its escape up the chimney you must first of all have an absolutely air-tight stove. The slightest leakage of air into the stove from below the fire pot, as in all oak stoves and imitation hot blast stoves (See illustration No. 3) passes up through the bed of coals and pushes this valuable gas half of your coal up the chimney, unused and unguessed.

The secret of our remarkable fuel saving air-tight construction lies in the fact that Cole's Hot Blast heater is really "two stoves in one," i. e., the ordinary oak stove, placed inside a pointless boiler plate body, double-seamed and riveted bottom and side absolutely air-tight. This air-tight construction gives perfect control of the air entering the stove and is the secret of operation of Cole's Fuel Saving Hot Blast Draft. This draft tube extends from the top center of the stove to a point just over the fuel bed (See illustration). Down this tube a blast of fresh air heated to over 600 degrees Fahrenheit is discharged over the surface of the burning coal and thoroughly churned and mixed with the valuable distilled gas held above the fire and prevented from escaping up the chimney by our air-tight construction.

Patented Anti-Puffing and Check Draft

No Puffing or Soot in your house. This Patented Anti-Puffing device (See Fig. 2) can be had only on Cole's Original Hot Blast heaters and is guaranteed to prevent puffing. This great boon to the housewife places our modern heater above all competition. If you have an eye for true comfort and economy you will place Cole's Original Hot Blast Heater in your home today.

Smoke Proof and Dust Proof Feed Door

The Guaranteed Fuel-Saving and fire-holding qualities are made possible by the Patented Air-Tight Lower Draft (See Fig. 1) which makes an everlasting air-tight connection with the steel body which cannot be affected by the fiercest heat. This great feature makes our guaranteed air-tight construction possible and places this handsome heater as the heating stove without a peer. Put one in your home now.

CIVIL WAR VETS READY FOR LAST BIG MEETING
Encampment at Columbus, O., Marks the Final National Gathering of G. A. R.
ONLY 135,000 VETS LEFT

(By Associated Press.)
COLUMBUS, O., Sept. 5.—Their ranks reduced to approximately 135,000, members of the Grand Army of the Republic, are about ready to retire from the stage of action and bequeath their traditions to their sons, veterans of the European war, now organizing the American Legion.
The fifty-third annual encampment of the G. A. R. which opens here Sunday, Sept. 7, for one week, probably will be the last great encampment of the old veterans, according to James E. Campbell, former governor of Ohio, and chairman of the local committee on arrangements.
"Of course, there will be other encampments, but in all probability this will be the last big one. This was indicated at the last encampment when thousands of veterans in the far west voted to hold this year's encampment in Columbus in preference to St. Paul. Most of them were born in the central and eastern states and they wanted to return, as they expressed it, to pay a last visit to their old homes and bid final farewell to old and dear friends," Governor Campbell said.
Governor Campbell expressed the belief that the G. A. R. after this year's encampment, though maintaining its organization, will gradually turn over to veterans of the European war their activities. "This is indicated," he said, "by the fact that for the first time in its history, the G. A. R. has invited veterans of another war, the world conflict, to participate in its annual parade and other exercises this year. The G. A. R. has been a very jealous organization, never permitting any organization except the Sons of Veterans, to participate in any of its activities, then only in the parade. Now our own sons are standing ready to take up the work and they no doubt finally will assume it."
Besides the G. A. R. seven affiliated organizations will meet here at the same time. They are: The Woman's Relief Corps, Ladies of the G. A. R., Sons of Veterans, Sons of Confederate Veterans, Daughters of Veterans, Ex-Prisoners of War, and Civil War Nurses.
One of the features besides the annual parade which will be participated in by the G. A. R. Sons of Veterans and soldiers of the recent war, will be a union religious service on Sunday afternoon at Memorial hall when ministers of all religious denominations will speak and take part in the exercises. In the evening a musical program will be rendered at the hall.
In a letter addressed to world war soldiers, sailors and marines, especially those joining the American Legion, Governor Campbell, after speaking of the general order of Clarendon E. Adams, of Omaha, commander-in-chief of the G. A. R., inviting world war and Spanish-American war veterans to march in the parade, said:
"The policy for this reversal of the former policy is that the members of the Grand Army of the Republic exist in the existence in this nation of 4,000,000 young men, largely the sons and grandsons of old veterans, who are able and ready to take up the welcome duty of another half century of keeping alive the fires of patriotism."

SOME OF THE FEATURES

Representing the Bowser interests
in practically every state in the
union, district sales managers of the
F. Bowser company are in semi-
annual conference in this city at the
home office of the company, and will
have their first meeting of the
conference Saturday afternoon.

FINAL SESSION SATURDAY

Shortly after eating some candy
beans last evening, James S. Walsh,
2-year-old son of Mr. and Mrs.
James S. Walsh, 650 West Fifth
street, was taken suddenly ill and
died three hours later. The child
was playing when stricken and prior
to eating the candy was apparently
in the best of health. The case has
been reported to Coroner Charles J.
Rochechild, who is conducting a
thorough investigation. Whether the
candy had anything to do with the
child's death had not been deter-
mined up to a late hour today. An
autopsy will probably be held.

CORONER INVESTIGATING

Although the child choked on one
of the candy beans, the coroner is
confident that death was not due to
transpiration of candy. The child
was taken to the Scott Packing com-
pany's downtown office.

though at no time has the sugar
been more acute in Fort
Wayne than at the present, wholesale-
men are practically unanimous in
opinion that within from one to
weeks the situation will be
relieved by the arrival of
sugar consignments, possibly
meeting the demands of retail
merchants and consumers to be supplied
under restriction.

Reasons for Shortage.

Existing shortage is due to sev-
eral causes, which combine at this
time of the year to make an unpre-
cedented demand. In addition to the
at reasonable demand for sugar
announcing purposes which has been
in the local supply for the past
few weeks, a number of other un-
expected factors have tended to
increase the demand. The fact that
the sugar harvest in many of the
leading sugar producing countries
has been unusually small, and that
the demand for sugar in many of
the leading sugar consuming coun-
tries has been unusually large, has
tended to increase the demand for
sugar in this country. The fact that

Captain A. E. Fauve.

Captain Fauve has the honor of
being the first Fort Wayne physician
to enlist in the service of his country.
He was commissioned a lieutenant in
the medical corps on March 24, 1917,
and left Fort Wayne on July 17, 1917,
to assume his military duties. He has
seen service for two years overseas
and is one of the few Fort Wayne
men to wear four service stripes. He
was the first Fort Wayne physician
to enter the service and the last to
leave it.

After leaving the United States on
one of the first hospital ships to be
sent overseas, Captain Fauve was
stationed in England for a short
time. He was appointed chief sur-
geon of hospital train No. 50 some
time later and sent to France, where
he was placed in charge of the in-
firmary at Bourges. He was later
placed at the head of the medical
supply depot No. 2. He sailed from
Brest and arrived in New York city
a few days ago.

Although it is not known definitely
when he will receive his discharge,
Mrs. Fauve this morning received
word that he will have charge of a
troop train leaving Camp Merritt,
N. J., where he is now stationed, for
some other camp, where it is sup-
posed that the men will be mustered
out.

Taken to Hospital.

STROH, Ind., Sept. 5.—Kenneth,
4-year-old son of Mr. and Mrs. J. D.
Perkins, of this place, was taken to
Lakeside hospital, Kendallville,
where he will undergo an operation
for appendicitis.

Actual Maintenance of County
Requires No More Taxes
Than Last Year.

HUNTINGTON COUNTY TAX
RATE IS BROUGHT DOWN

Normal Expense
IS NO GREATER

Many Extra Projects

While the gross county tax levy is
seven and one-third cents higher
than it would have been had it been
proportionately the same as last year,
the amount of taxes for the actual
maintenance of Allen county is no
greater than last year, in spite of the
much higher cost of everything en-
tering into the upkeep of the county.
This fact represents a glowing com-
pliment upon the efficient and
economical administration of the
county's affairs by the present county
officials, for they are actually able to
conduct the normal maintenance of
the county on a standard fully
equal to that of the other counties
of the state. In view of the great
increase in cost of labor, sup-
plies, etc., this attainment is
regarded as a very remarkable
achievement. The seven and one-third
cents, which the gross county tax levy
is higher than it would have been pro-
portionately, is due to the fact that
the county has been required to
maintain a standard fully equal to
that of the other counties of the
state. In view of the great increase
in cost of labor, supplies, etc., this
attainment is regarded as a very
remarkable achievement. The seven

county tax levy is higher than it
would have been proportionately,

has been required to maintain a

Hoffman-Wolf.

One of the largest and most beautiful home weddings of the present season took place last evening when Miss Esther Wolf, daughter of Mr. and Mrs. Paul E. Wolf, of this city, and Mr. William H. Hoffman, son of Mr. and Mrs. August Hoffman, of Staten Island, N. Y., were united in marriage at the Wolf residence on Canal street. Marked by unusual beauty and excellent taste, the ceremony took place promptly at 7:00 o'clock in the presence of seventy relatives and friends.

The gray walls of the west parlor were completely screened with smilax, as were the french doors and electric fans. Tall palms and boxwood trees were arranged down the center of the room forming an aisle, at the end of which greenery was placed to represent the altar.

In front of this white satin kneeling bench was placed. The spacious room was lighted by tall cathedral candles. Immediately preceding the ceremony, a short musical was given by Mr. Simon, Mr. Dannecker and Miss Kessler. At the appointed hour, Miss Amy Wolf, a sister of the bride and an accomplished musician, began the wedding march. The bride and groom proceeded down the broad stairway, through the library and living room and on into the west parlor. Miss Ruth Wolf attended her sister. Miss Edith Hoffman, a sister of the groom, immediately preceded the bride, and Miss Edith Hoffman, a sister of the groom, immediately preceded the bride.

The bride walked with her father, who gave her in marriage, and looked very lovely in her bridal gown of white crepe satin, which was made with a wide front panel of duchess lace. Tiers of the crepe satin formed the skirt and bodice. Her hair was styled in a simple and elegant manner. The bride was quite plain except for a touch of the lace at the neck and on the sleeves. An exquisite court train hung from the shoulders was made of the bridal veil with wide band of the satin at the bottom. The veil fell gracefully to the edge of the train and was made in cap effect with touch of the lace becomingly wired in points about the face. She carried a beautiful shower bouquet of lilies of the valley and lavender orchids. At the altar the bride and groom were met by the groom and best man, Mr. Gustave Zimmerman, of Brooklyn, N. Y. The Rev. Jacob Miller officiated.

After congratulations and felicitations had been extended an elaborate wedding dinner was served. The bride's table was laid in beautiful silver and rare lace and decorated with a wedding cake and low bowls of roses. Small tables were arranged about the rooms, each decorated with bright colored flowers. During the dinner hour an excellent program of music was furnished.

Mr. and Mrs. Hoffman left at a late hour on a boat trip to the Thousand Islands. The bride's going outfit was a stunning suit of taupe broadcloth, with smart chin-chin hat embroidered in yarn. With this was worn a beaded blouse of taupe georgette. The young couple will go to Staten Island in a few weeks where a cozy apartment awaits them on Duer Lane. The groom is a prominent young contractor.

Girls

New York: It is my own discovery and it takes just one application to get such marvelous results, says Mae Edna Wilder, when her friends ask her about her wonderful white skin and the improved appearance of her hands and arms. You can do the same thing if you follow my advice, she says. I feel it is my duty to tell every girl or woman what this remarkable cream will do for me. Just think of it. All this change in a single application. I never tire of telling others just what brought about such remarkable results. Here is the identical prescription that whitened my skin and removed every defect from my face, neck, hands and arms. Until you try it you can form no idea of the marvelous change it will make. The prescription which you can prepare at your own home is as follows: Go to any grocery and get 10 cents worth of ordinary oatmeal and from any drug store a bottle of dermivul. Prepare the oatmeal as directed in every package of dermivul and apply night and morning. The first application will astonish you. It makes the skin appear white, transparent, smooth and velvety. I especially recommend it for freckles, tan, sun spots, coarse pores, dark, sallow, rough skin, ruddiness, wrinkles, and in fact, every blemish the face, neck, hands and arms are heir to. If your neck is dark one application of this Dermivul-Oatmeal combination will make it look as white as a lily. It is absolutely harmless and will not produce or stimulate a growth of hair. No matter how rough and ungainly the hands and arms or what abuses they have had through hard work and exposure to the sun and wind this prescription will work a wonderful transformation in 12 hours at the most. Thousands who have used it have had the same results as I have had.

NOTE—To get the best effects be sure to follow the complete directions contained in every package of Dermivul. You have only to get dermivul and oatmeal. You need nothing else and it is so simple that anyone can use it, and so inexpensive that any girl or woman can afford it. Druggists and department stores guarantee that there will be application or they will refund the money. It is sold in this city at all toilet counters under a money-refund guarantee by all department stores and druggists, including Meyer Bros., Drier Drug Co., and Geo. F. Miller.

When a Girl Marries

By ANN LISLE

(Copyright, 1919, King Feature Syndicate, Inc.)
CCXCI.
"Jim!" I gasped. "The ring! The ring isn't in the box!"
"Nonsense, it isn't gone," said Jim, rising and coming around to my side of the table. "It couldn't be gone. It must have rolled out of the box when Bertha opened it."
Suiting his action to the idea, Jim dropped to his knees and crept across the rug, examining every inch of it. I followed his example and began poking about in corners. Bertha felt to moving tables and chairs peering under sideboard and serving table, wringing her hands and muttering to herself as the unavailing search progressed.
We went over and over the same ground, the way people do when they've lost something and refuse to believe facts. We turned back the edges of the rug, rolling it so far that no ring could ever have gotten under it to the distance we investigated. We moved furniture out of place and into it again. We fairly tore the room to pieces, while our soup stood cooling and congealing. Finally Jim got to his feet, his face grave, his eyes dead and remote.
"I'll look into the living room. You and Bertha stay here and go over this room again," he said.
The minute he left the room Bertha turned to me and began screaming in a high, shrill voice, such as I had never dreamed my quiet, self-effacing maid possessed.
"I think I look like it! It's always a poor girl like me gets blamed when things happen. And now, with things the way they are, you'll be sure to put it on me. But I tell you I didn't see it. I don't even know what it is you're lost."
Up to this moment I had never considered the possibility of a theft, it certainly hadn't occurred to me to suspect my kind, considerate Bertha. But her protests made me nervous. I was glad when Jim returned and took things into his own hands.
"Bertha," he said quietly, "I don't want to frighten you unnecessarily, but a very valuable ring belonging to Mrs. Harrison has been lost. I have sent for detectives. Is there anything you would like to say before he comes? Mind, I'm not accusing you of anything, but you must see for yourself how it looks. Bertha burst into sobs and begged me to examine her at once.
"I didn't do it," she sobbed. "But the police will put it on me sure. Oh, Mrs. Harrison would be so angry. Into your room and search me yourself? Honest, I didn't touch the ring! I didn't even know there was a ring. It couldn't have been in the box when you sent me for it."
"How did it get out?" asked Jim judicially.
"Wait a minute," I interrupted. "There are two things to be cleared up at once. You did know there was a ring, Bertha, for when you asked me to come into the hall I was wearing it, and you watched me while I put it in the box. But until we sent you for it just now you weren't alone with the box—and other people were. Come with me and I'll search you, if you prefer that to the detective's suspicions."
Bertha insisted on a minute examination of everything she was wearing. She even pulled down her long, fair hair and made me tap the heels of her shoes and feel my way around the hem of her dress. The search revealed nothing. Suddenly she flung herself at my feet.
"Oh, Mrs. Harrison, they'll pin it to me sure!" she sobbed. "The reason I was leaving and wouldn't tell is like this. I'm married—and by man's a crook. He's served two years for a second-story job and he gets back to-night from the river. I was leaving you because I like you so well. I didn't want to stay here and let him come to me for fear he'd get onto the place like he did my last one—and take things. That's why I was going. Now do you see why the police will fasten the ring on me? Mrs. Harrison, I love my man even if he is a crook. But I ain't one. Help me, please, if you love your husband, help me."
I put my hand out and helped Bertha to her feet. I was impressed by her wild sincerity. I felt rather than believed that she had nothing to do with the theft. If that is true—of my ring. Yet what else could I think?
I myself had replaced the ring in its box an hour before. During the time that I attended the box, I remained on my living-room table. Besides Bertha, two other persons had been alone with that box and its contents—Daisy and Carl. Unthinkable to suspect Carl, my dear old pal! Then if Bertha was innocent, as indeed I felt and believed, whom, except Daisy, was there to connect with the disappearance of my ring?
Through my mind then flashed Daisy's envious expression when first she saw the ring. Again in my ears rang her bitter words.
"I envy this for you. An adoring husband. Jewels. You matter to every one. Can't you love Carl, please?"
I got out of my apartment. But then Carl, too, had rushed away—out of town. My brain whirled. Bertha's eyes were fixed pleadingly on my face and I had to say something. So I pulled myself together and answered her plea for help.
"Bertha, I do believe you are innocent. I'll tell that to the police."
"Don't let them hold me. Don't let them hold me. If I don't go to our meeting place tonight, my husband will come here and then I won't have a chance in the world. And he'll go up the river again—or worse. For I think he'd kill anyone who laid hands on me," cried the girl wildly.
Then there was a knock at the door.
"The police," shrieked Bertha and flung herself wildly at my feet. I never touched the ring. Don't let them take me. If I don't go to meet my man to-night I can't answer for him—or for what'll happen."

(Special to the News)
 HICKSVILLE, O., Sept. 5.—Henry Stickney, now being held in the Defiance county jail on a charge of robbing the John Topper store several weeks ago, will soon face a new charge of stealing two bicycles from Antwerp boys a couple of months ago. Stickney disposed of the bicycles to a local dealer who was unaware that they were stolen goods. The dealer in turn sold the wheels to local parties, but they were identified by the Antwerp boys and will be returned to their rightful owners.

Lincoln Lifers Will Play Van Wert Next Sunday

ONLY THREE MORE GAMES AT LEAGUE PARK THIS YEAR
Van Wert, Defiance and Bluffton Are to Play the Lincoln Lifers.

MAY PLAY AT HICKSVILLE

But three more games will be played at League park this season, when the curtain will be rung down on the best season semi-pro ball has enjoyed in this city. Van Wert will be here next Sunday, followed by Defiance and Bluffton. This means three good games for the month of September. Van Wert took the measure of the Lincoln Lifers on the occasion of the Buckeyes' visit here four weeks ago. The Lifers did not relish the defeat a little bit and are out to take the visitors into camp in the coming engagement.

Van Wert fans back their club to the limit and are out to take the series from the Fort Wayne boys. The clubs have met twice this season, each team getting a win.

Diederich will probably be the pitching selection, and if the old reliable is in the form he has shown the past month, the hard-hitting Buckeyes will not find the going as easy as they expected.

The Lincoln Lifers have been playing real ball. Strong in every department, and being demons with the stick, the insurance men will give any club in the semi-pro class in the country a battle.

Play will be called at 3 o'clock next Sunday with Shrawelka and Dornick umpiring.

Hicksfield Want Lifers
Hicksfield, O., wants the Lincoln Lifers to put on a couple of games at the Ohio town during the Hicksfield fair. A baseball tournament will be put on with the Hicksfield Browns, Defiance, Paulding and other fast teams entered.

Race Results at the Indiana State Fair
INDIANAPOLIS, Sept. 5.—Close and exciting finishes featured the harness races at the state fair grounds yesterday afternoon. The best time of the day, 2:07 1/2, was made by Oliver R., in the first heat of the 2:12 pace, but the effort was too much for the horse and she finished fifth and sixth in the following heats.

In the 2:16 trot Ed H. won in straight heats. Zelma Strong was second and Kentucky Lee third. Best time was 2:18 1/2.

Lightfoot won the 2:15 pace by taking the first and third heats. Logan Hedgewood finished second and Myron Cooks third. Best time was 2:07 1/2, made by both Lightfoot and Logan Hedgewood.

The 2:13 pace went to Twister C., who won the first and two seconds. Sister Xerta was given second place in the summaries and Oliver R. then.

Betty Thornton won the 2:22 trot in straight heats. Her best time was 2:11 1/2. Roy Coastman was second and Hattie Y. Todd, third.

DEMPSEY AT THE MAJESTIC

Large Audience Sees Him Box With Big Bill Tate.

Jack Dempsey, world heavyweight champion, appeared before a large audience at the Majestic theater last evening and made a big hit with local fans. However, Dempsey is not as large a man as most of those present expected to see. His part of the program included a short talk in which he introduced his manager, Jack Kearns, who does the talking during the remaining part of the act. Shadow boxing, three fast rounds with his sparring partner Big Bill Tate and a demonstration of how he knocked out Jess Willard.

Dempsey's show is high class and the other acts above the average in vaudeville.

SOME STARS SIGNED

Manager Dupee, of the All-Nations team, has signed some brilliant stars, including E. Seiden, shortstop; Lafayette Riddle, first baseman; and R. Crawley, a West Indian, and is now in readiness for the game scheduled with Mart Cleary's Lincoln Lifes team on September 14. Manager Dupee says he is willing to spend every cent he possesses in order to defeat the insurance men.

U. of I. Star End Leads Vets Eleven

The World War Vets under the leadership of Ben Kraft, all-western left end of the western section for the year of 1915, are all set for a very successful season. That a big crowd will attend the

REN KRAFT
opening game of the Vets in this city, to greet Captain Kraft and his teammates is assured.

Captain Kraft is a former University of Illinois letter man and reached his greatest honor in 1915, when he was picked for the all-western team, as a reward for his excellent work of the year. During 1917 he was out of the game, due to a broken leg but later was accepted for aviation service in the navy, and has been through strenuous training since, all of which shows he is ready for a hard year of the good old sport.

Loyal fans of the pig-skin game in this city look forward eagerly to the opening date on Sunday, October 5.

ALL ATTENDANCE RECORDS BROKEN AT VAN WERT FAIR

John D. Rockefeller Wins the 2:25 Trot for a Purse of \$350.

SUMMARY OF THE RACES

(Special to the News)
VAN WERT, O., Sept. 5.—With the official tabulations not made, it is believed that all records of attendance at the Van Wert county fair were broken Thursday with an estimated attendance of forty-five thousand and forty thousand as the largest figure of attendance up to this time. There were thirty-six hundred paid admissions to the grand stand and it is estimated that the unpaid admissions would put the total to more than four thousand. Weather was ideal and there was not the slightest disturbance, not a case of intoxication, but every one bent on real enjoyment. During the day many compliments were heard from those in attendance on the admirable management of the fair by Hon. William A. Marker, secretary and his co-workers. Hon. J. E. Russell, of Sidney, secretary of the fair association at this time; E. S. Sweet, secretary of the Bowling Green fair; Adam Shaffer, postmaster at Wapakoneta and secretary of the Auglaize county fair; W. B. Brittain, secretary of the Paulding county fair; William H. Wiley, secretary of the Mercer county fair and Hon. E. V. Walborn, manager of the Ohio state fair and for several years secretary of the Van Wert county fair, were all of one mind regarding the track. The most interesting of the racing events was the 2:24 trot for a \$350 purse, which was won by John D. Rockefeller in three straight heats, with the best time 2:19 1/2.

Watching the Scoreboard

Yesterday's hero—Whithead. The Pirates first sacker tripled in the tenth and scored the run which beat the Cubs 4 to 2.

Walter Johnson pitched Washington to a win over the Athletics 2 to 1. But Mack took the second 6 to 2.

The Giants bunted their way to a 5 to 1 victory over the Dodgers.

The Tigers made only four hits but beat the Browns 2 to 0.

Three tallies in the eighth inning enabled the Braves to beat the Phillies 4 to 1.

(Philadelphia has three entries among the last eight in the amateur golf championship and three among the last four in the lady tennis championship.)

In days of old, or sooner still, when Connie Mack was at his best, when his hold heroes soaked the pill White Trash and Bender did the rest—the grand old town was there, four ways.

Ah, yes, those were the happy days! Or later still when Pat Moran, Before he drew the well known card—that made the Reds a winning team—The old town lingered on the map And swapper his rivals, rap for rap.

Whereat the cheering seemed to cease And Triumph found nobody home. Much like the glory that was Greece, The grandeur that belonged to Rome; In noisy silence, well apart, The Old Town nursed an aching heart.

When, as at sunlight after rain, Her banners once more grace the plain Where waving errands face the test; Who cuts again the festive capers? Say, don't you ever read the papers?

It has been a wonderful thing for Philadelphia sport-lovers, after taking one look at the Standing of the Clubs, to switch hurriedly to a perusal of the golf and tennis news in the way the dark cloud takes on a silver lining and the sunlight pierces the bitter fog.

The Balance of Power.
There was a time when Boston with the Red Sox and the Braves—the Harvard football machine and Francis Outmet—ruled the commonwealth. But the tide of power has been restored, where no one city rules the game. And in slogging along under the Arch of Triumph, New York is now well in the rear. Her two ball clubs are out of the pennant debate. In his case it was almost as spectacular as his rise.

The present generation of fans is almost a unit in the belief that no greater outfielder ever could have flashed along the baseball horizon than Ty Cobb. But many of the old timers say:

"Bill Lange was greater."
And then they qualify:
"Cobb is a marvel—there's no disputing that. He perhaps has in Lange a little in the matter of hitting. It's about 50-50 in baserunning. But as a fielder and a thrower, Lange was Cobb's superior. And Lange, unlike Cobb, was an all-around man. He could pitch splendidly, was a catching marvel and could play any position of the infield or outfield in sensational style."

"Lange was a giant in size, towering well beyond six feet and weighing well beyond 200. Yet despite his immense bulk, Lange was deer-like on the bases. There are many who have seen both Cobb and Lange at their best, who incline to the belief that Lange was even faster than Cobb, though he had to haul around much more 'tonnage.' He led the National League in base stealing again and again and through all the years of his prime, ranked as the nightmarer of the bases."

"Bill Lange was as graceful a batsman as ever stepped to the plate. He made no wild lunges at the ball. He hit with the same free swing of Harry Hooper. He didn't seem to put tremendous power in the drive. Yet when bat met ball, the horsehide whistled along as if projected from a cannon."

"And on the sprints, Lange showed quick thinking equal to that of Cobb. His mind was ever alert for the slightest opportunity and times without number he stretched seeming singles into two baggers by catching his rivals unawares."

"The throwing arm of Bill Lange was lauded in song and story. He could hurl the ball from the deepest recesses of the playing field on a line to home plate—a trick that only a few men of all time have been able to duplicate. And, as a fielder, Lange was superb. His fielding was faultless—he knew just where to play for every ball hit-out in his direction."

"Lange figured in many spectacular baseball feats but perhaps no afternoon of any players' lifetime was a more remarkable one than Lange lived in Chicago nearly 25 years ago.

INDIANAPOLIS POLICE IN HOT BURGLAR CHASE

(By United Press)
INDIANAPOLIS, Sept. 5.—From midnight until dawn the police emergency squad was kept busy investigating burglaries and searching for hold-up men who operated in various parts of the city. Mrs. Bessie Katzen had a desperate battle with a burglar who robbed her of \$200. At 1:30 o'clock this morning Mrs. Katzen awakened and saw a man crawling on the floor near her bed. She reached for a revolver concealed under her pillow, but failed to find the weapon immediately. The burglar leaped to his feet and started running toward the door. Mrs. Katzen did not wait to load the revolver, but jumped from the bed and grabbed the burglar. She attempted to hold the man, who, in his effort to escape, struck her a stunning blow in the face, causing her to fall through the window by which he had entered.

DAILY DOINGS IN HARRISON HILL

With the sale of lots 13 and 15 in Harrison Hill to C. S. Blackwell and his mother, who will occupy the former George McClintic home, all of the properties comprising the north half of Harrison boulevard, on both sides of the street, has been sold, with the exception of one lot, namely the corner property nearest to Rudisill boulevard. The latter property is one of the choicest in Harrison Hill. It is opposite the home of Martin J. Grace. Of the sixteen lots which originally made up this district, the area has been purchased by eleven persons, as a re-subdivision of the land was found to be more pleasing to the buyers. All wanted even larger lots than those originally offered and even at that the smallest has a frontage of 65 feet and the largest 88 feet.

Building operations are going forward in a sprightly manner in Harrison Hill. It is the real live district of the city and will continue to be so. Harrison Hill property is the one thing in Fort Wayne which has not risen in price during the past few months. And the reason is to be maintained in order that those who wish to secure the finest property for the price in any mid-western city, may do so. A salesman is in constant attendance for the assistance of those who desire any information concerning the subdivision.

because of this fact that "Gets-It" is today the biggest seller among corn removers on this planet. It means the end of "corn-filing." For hard corns, soft corns, very old corns, young corns, corns between the toes and calluses, it means a quick, certain finish. "Gets-It" is applied in 2 or 3 seconds. All you need is 2 or 3 drops. As easy to do as signing your name. It does away forever with tape, plasters, bandages, knives, corn-diggers, scissors, files and blood-bringing razors. Ease your corn-pains, be corn free at last. Buy Steele Park.

(Special to the News)
DECATUR, Ind., Sept. 5.—One of the largest real estate deals transacted for some time, was closed when A. L. Hall, of Des Moines, Ia., purchased the 120 acre farm, which for many years has been known as Steele's park. The amount of the consideration has not been made public, but it is said that the sum paid is almost twice the value of the land for farming purposes. The deal was made through the Snow agency, of this city. Mr. Hall has not yet stated what he expects to do with the place, but it is probable that he will make extensive improvements. Mr. Steele laid out the park several years ago for the purpose of taking care of county fairs, it originally containing a baseball diamond, race track, horse barns and other things, including an artificial lake, and was one of the prettiest places in the county. Lately, however, the park has been used for agricultural purposes and the buildings are practically worthless, having been allowed to rot.

BEDTIME PENCIL PICTURES. RIGHT across the street from where little Harriet and Charlie live a new building is being put up and the two kiddies love to sit on their porch and watch the men at work. They were particularly interested in the man who was mixing the mortar and watched him as he mixed the sand-like cement and the water, growing when it didn't get thick quick enough. From time to time the mortar would be carried up to the brick-layers and if you'll follow the dots you'll see how it was done.

THE WISHING PLANE

Although Jack and Jane had en- joyed their flying trip to Scotland, they were tickled when Captain Brave announced the next morning that they were to leave that day for Switzerland. For the children had seen pictures of the little country with its wonderful ice-covered moun- tains and its pretty little valleys and Jack, especially, had read lots of times about how Swiss boys and girls could coast for miles down the snow-covered mountain roads. So in less than time it takes to tell the little folks found themselves coming toward Switzerland. High as they were in the airplane, the mountains ahead of them seemed to fairly stick up into the sky. As Cap- tain Brave let the plane drop slowly Jack and Jane could see the ice- covered peaks plainly. Then the captain circled down between two of the mountains and the children over the side of the plane could see a wonderful little valley coming up to meet them. Such wonderful colors the children never had seen. The houses, quaint little affairs the chil- dren thought made the picture pret- tier than ever. Captain Brave shut off the motor, glided to a landing in an open field near one of the houses and the chil- dren climbed out. A group of red- checked healthy children gathered around the airplane and a big man, the owner of the house, came out of it and came over to Captain Brave. Of course, the first thing Captain Brave had to do was to arrange for some place for him and his little family to stay. "I'm sure the Widow Aar would be more than glad to take you in," said the man. "She lives in that little chalet (which is a house) down the road. Her husband was killed while leading some folks across the moun- tains and what you pay her for tak- ing care of your folks will help her." So Captain Brave arranged with Mrs. Aar to let them live there. Of course the children were

Wolf & Dessauer "What Are The New Styles for Fall?" Here is the Answer, Reflected in a Hundred Charming Variations! —To begin with, you'll find the new silhouette wider—perhaps because the scarcity of materials is not so great since the end of the war—perhaps because the narrow, mincing step was not wholly agreeable, or perhaps Dame Fashion merely changed her mind! —At any rate, the styles are fixed, and our selection of all the approved modes complete. You'll find the Apparel Sections ready to serve you with the newest and best, at prices that are extremely mod- erate, quality considered!

The New Suits Are Priced at \$35 and up —For immediate wear are exquisitely plain tailored suits of fine tricotine, silvertone, and velour, with perhaps broad bound edges or grouped buttons or arrow heads beautifully embroidered as a smart finish. And won- derful lines that are given by the snug set of the shoulder, and close fitting sleeves. —Other models exploit the new choker collar of fur; and more elegant suits have beautiful fur trim- mings of gray squirrel, Australian opossum, nutria, beaver and Hudson seal. These suits are made of such materials as peachblow, cashmere velour, silvertone, finest serges and duvetyne. —The most popular shades of brown are represented—Autumn brown, reindeer, Taesian and henna and a splendid showing of the equally popular navy blue.

The New Coats Are Priced at \$27.50 and up —Such stunning coats! Inseparable accessories to the fashionable frocks, the new coats are smarter, lovelier than any other season has ever produced. —Destined to undisputed popularity are the models of wool velour, bolivia, silvertone and fortuna cloth, in serviceable shades of tan, taupe, brown, oxford and navy. Many of these garments have large "crushable" collars of self-material, clever pockets and attractive buttons. —Handsome fur-trimmed coats are developed of softest bolivia, silvertone and evora cloth, with huge collars and cuffs of Australian opossum, French and Hudson seal, nutria and beaver. All are exquisitely lined with Pussy Willow silk.

The New Dresses Are Priced at \$25 and up —The smart new street dresses confine themselves to materials which possess every quality of serviceability and distinctive appearance combined. Tricotine, serge, velour, tricolette and taffeta are the most favored materials, in the fashionable browns, reindeer, beige and black, with no cessation in the great demand for navy blue. —The tunic remains with many unusual adaptations, though there are models in straight line effects, and with scant pleated skirts. Wool embroideries, Irish lace collars and tiny vestees are delightful features of these charming Autumn frocks. —Georgette models, in the dark shades, beautifully beaded, are shown for afternoon and evening wear.

The Autumn Blouses —Many of Autumn's Blouses sponsor georgette and very cleverly this filmy material takes colorful Grecian and Roman embroidery as its ally. One of the most charming of all the modes featured is the overblouse type, roundly youthful of neckline and girdled with contrasting satin. It matters not whether it is enhanced by tinsel floss, soutache or woollen embroidery for in each case the result is equally bewitching and desirable. These exquisite affairs range in coloring from the most delicate pastel tones to vivid shades and the dark sub- dued suit colors. Fashion is unusually indulgent as to sleeves, allowing choice of varying lengths. Several newcomers to the Autumn Blouse display declare in no uncertain terms for buttons and braids, and certainly no one may dispute the distinctive beauty of the models which are developed of this highly popular material. —New tailored models are very smart, with their neat hemstitching and close-fitting sleeves. These come in both georgette and crepe de chine, and in high and low neck modes. \$5.95 and up.

Separate Skirts in Smart Sport, Street and Dress Models, \$13.95 and up —The new skirts are wider—that you'll note the first thing! —Many of them are pleated, particularly those of the stunning new plaids and checks and stripes. —Still others are plainly tailored, with only large patch pockets and belts to relieve their plainness. —And some are beautifully trimmed with huge buttons and silk braids. —All the above skirts are for street and gen- eral wear. —The dressier models are made of soft silk poplin, shimmering satins, and wool jerseys, in all the fashionable colors, and stylish models.

We're Very Busy Getting Young Girls Ready for School —And tomorrow will be the busiest day of all in the sections devoted to young girls' ap- parel. Mothers and daughters will find here a selection of pretty, practical, splendidly made school clothes at prices that are extremely reasonable.

Girl's Gingham Dresses; (Sizes 6 to 14 Years) special \$1.95 —The most attractive little models of colorful plaid gingham and plain chambrays. Many styles, all designed with girlish simplicity, with new collar, cuff and pocket ideas by way of trimming.

Three Groups of Gingham Dresses \$2.98, \$3.50 and \$3.98 —These dresses are of exceptional quality and superior workmanship. Only the best grades of gingham and chambrays were used in their mak- ing. Striking plaids, neat checks and plain colors—in varied pretty, youthful styles for girls from 6 to 14.

Middy Blouses FOR FALL —In Regulation Style, of all white; with colored collars and cuffs; \$2.25 to \$3.95. —Middy Blouses, of cop- enhagen linen, with white tailored braid trimming on collars and cuffs; \$2.50 and \$3.75. —Navy Flannel Middies, \$10.50 and up. —Navy Serge Middies, \$4.50 to \$10.50.

Don't talk out of de pilot house." greatly as this brief, hastily pered conversation had served to up certain puzzling matters in mind, the total result of the infor- on thus imparted by Elsie Clark rendered the situation more lex and puzzling. Evidently the aytor had not been confined to ie upper deck, but had been more ly hidden away below, where presence on board would better e detection. For what purpose? The other wiper, Elsie, had pos- sion of a vague fear in Kirby's t that, through some accident, dentity might be discovered, and, plenty disarranged, compre- ed the put the intended Elsie- calie in his future, and realized he cated more to gain possession r, to get her into his power, than id to obtain the slave. The knowledge helped me to under- i the predicament which this lation put him into, and how rately he would strive to retain pperhood. If it was any truth, he Beaucaire's white daugh- and could gain communication others of her class, bringing to a proof of her identity, there d be real men enough on board. The thing was standing ast now, and while they re- ed on board, was escape or dis- ry. was about the middle of the fol- ing afternoon when the Advent- poked her blunt nose around a t of land, and came into full view the squall of hamlet of Yellow k. A half-hour later, we lay- gied up against the shore, hold- position amid several other boats e fast to stout trees, busily un- ing, and their broad gangplanks tching from forward deck to

necessity arose, I would throw off my on disguise and front him openly with the charge I could do no more. It was only an accident which gave me a clue to the real program. Mapes sent me back into the vacant space just toward of the paddle-wheel, seeking a lost canthook, and, as I turned about to return, the missing tool in my hand, I paused a moment glance curiously at through a slit in the boat's planking, attracted by the sound of a loud voice uttering a command. I was facing the shore and a box of men, uninformed, standing alone with small regard to order, but each bearing a rifle across his shoulder, were just tipping the ridge and plowing their way down

through the slippery clay in the di- rection of the forward gangway. Al- though I saw, not for an instant did my gaze linger on their disordered ranks. The sight which held me motionless was rather that of a long, broad plank, protected on either side by a rope rail, stretching from the slope of the second deck across the narrow Gulf of water, until it rested its other end firmly against the bank. The meaning of this was sufficient- ly apparent. For some reason of his own, Kirby had evidently chosen 'his means of attaining the shore, and, through personal friendship, Corcoran had consented to aid his purpose. The reason, plainly enough, was that

by use of this stern gangway the landing party would be enabled to attain the bank without the necessity of pushing their way through the crowd of idle loungers forward. And the passage had just been accom- plished, for, as my eyes focused the scene, they recognized the spare figure of the deputy disappearing over the crest—a vague glimpse, but sufficient. At the same instant hands above began to draw in the plank. There was but one thing for me to do, one action to take—follow them. Dropping the canthook, I turned off and crept forth through a small opening onto the wooden frame which supported the motionless piddle- wheel, choosing for the scene of

operations the river side, where the looker effectively concealed my move- ments from any prying eyes ashore. I lowered myself the full length of my arms, dangling there as instant by clinging to the framework, then loosened my grip and I dropped into the rushing waters beneath.

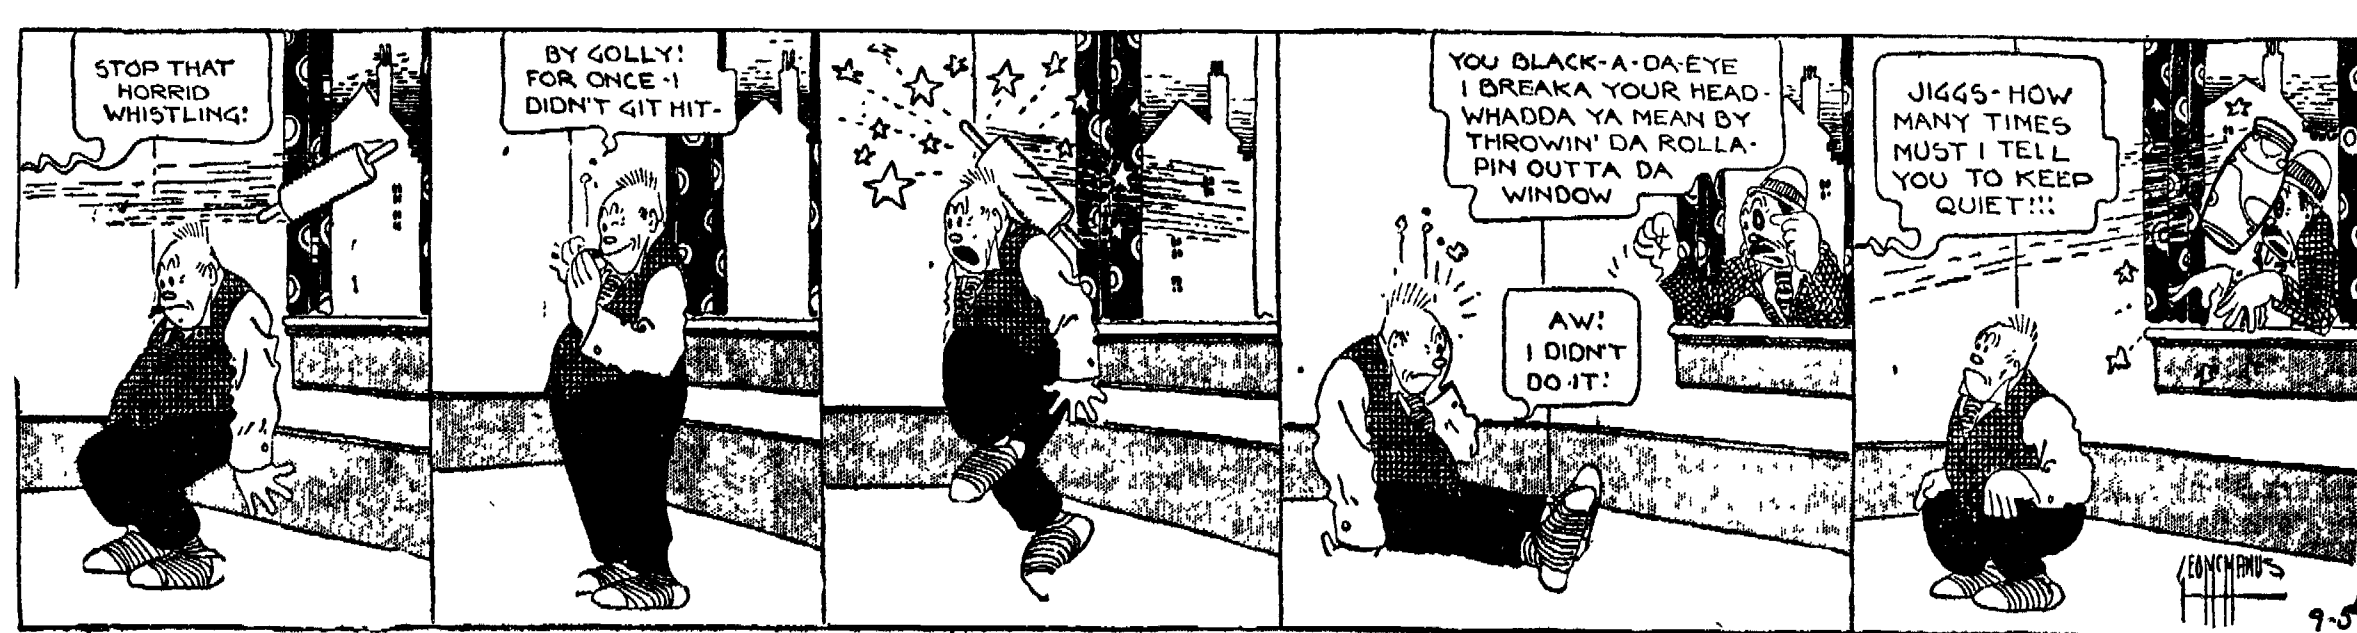

CHAPTER TWELVE
My Friend, the Deputy Sheriff.
Well below the surface, yet im- pelled swiftly downward by the study push of the current, sweeping about the steamer's stern, I struck, out with all the strength of my arms, anxious to attain in that first effort the greatest possible distance. I came panting up to breathe, my face lifted barely above the surface, dishing the water from my eyes, and casting one swift glance backward toward the landing. Great volumes of black smoke swept forth from the funnels, and my ears could distinguish the ceaseless hiss of steam. Again I permitted my body to sink into the depths, swimming onward with easier stroke, satisfied I had not been seen. I swam slowly ashore, creeping up the low bank into the seclusion of a shallow, sandy gully, scooped out by the late rains immediately about me. All was silent, the steadily deepening gloom rendering my surroundings vaguely indistinct. (To Be Continued)

Police Court

EXEMPLIFY RING CEREMONY

There Were No Wedding Bells to Accompany It, However.

The ring ceremony generally marks the beginning of a matrimonial venture. In the case of James and Eunice Bolt, it featured the culmination of their matrimonial venture. As an aftermath of a termination of amicable domestic relations, Bolt faced the city court this morning on an assault and battery charge, preferred by Mrs. Bolt. According to the evidence, the interchange of rings was paradoxical or

inverse to the conventional ceremony. Bolt claims that friend wife took his engagement ring and gave it to her mother, whereupon he deemed it only right and proper that the ceremony be completed. Accordingly when friend wife was in the back yard, seated in a motorcycle side car, Bolt prevailed upon her to give him back her engagement ring, employing a much more potent and effective medium, when moral suasion failed.

In fact, according to Mrs. Bolt's recital, he choked her and twisted her arm to get the ring from her finger. The judge could not see Bolt's story that he very tenderly removed the ring from his spouse's unobjectionable finger, and accordingly assessed a fine of \$5 and costs and a jail sentence of ten days. The jail sentence was suspended on condition that the defendant return the ring to his wife, who two days ago filed a complaint for divorce against him.

Howard Davis Located. escaped from the boys' school at Plainfield, was found here early this morning by Stationmaster Joe Degitz, of the city police.

City Court Notes.

Joe Thompson, arrested by Lieutenant of Police Dan Kintz, on a drunk charge, was given an indefinite continuance on the promise to bid farewell forever to his pretty much defunct friend, John B. Frank Poole, a train climber, taken in tow by Pennsylvania Detective Kwin, was assessed a fine of \$1 and costs.

Burd O'Dell, a Chicago youth, who was able to give a good account of himself, was let go. He was arrested by Officer Mayer on a loitering charge.

The case of Judson Palmer, charged with intoxication, was continued indefinitely.

On motion of the deputy prosecutor, the case of Herman Niezer was continued indefinitely in the city court this morning.

The case of Ed Woodworth was continued indefinitely. The army

CERTIFICATES AT Y. M. C. A. For Four Soldiers Whose Addresses Are Unknown.

Interest in the Victory buttons, which are being issued to all discharged army men, is still quite prevalent and applications continue to come in at the offices of the Y. M. C. A., on Calhoun street.

Ordinarily the discharge certificates with the button are returned to the home address of the men making application for the button, but the Y. M. C. A. has received discharge certificates and buttons for a number of soldiers whose address was not permanent and who wished to have them come to the association offices.

Four of these certificates with the buttons enclosed have been at the Y. M. C. A. for some time and have not been called for. The certificates are for the following soldiers: Myron M. Fisher, Charles Oglesby, Maurice

CITY BRIEFS

Three Years Coming—A certain party in this city received a post card this morning mailed in Cleveland in April 1916. The receipt of the card at this late date caused a good deal of amusement. It is thought that the card became fastened in some manner in the mailer in Cleveland and had been there unnoticed, being noticed only when the machine was either moved or repaired.
